

**NORTH CENTRAL CHIR NETWORK
STRATEGIC PLAN AT A GLANCE AS OF JUNE 30, 2021**

PRACTICAL VISION								February 9, 2021
<i>What do we want to see in the North Central CHIR Region as a result of our actions in 3-5 years?</i>								
Expanded access to health care including behavioral health	SDoH addressed collaboratively	Residents and diverse community partners authentically engaged	Universal cross-sector SDoH screening	Centralized data system for coordinated referrals across sectors	Expanded Broadband availability	Increased focus on preventive care models	Health in all policies integrated across sectors	
BARRIERS TO THE PRACTICAL VISION								March 9, 2021
<i>What is blocking us from achieving our Practical Vision?</i>								
Incomplete shared understanding of system change to improve health equity	Limited availability and capacity for broadband internet	CCL Model Available in Limited Counties	Competing Organizational Priorities Despite Shared Goals	Many cross-sector relationships under development	Data System planning in early stages	Braided Sustainability Strategy Under Development		
STRATEGIC DIRECTIONS								April 13, 2021
<i>What innovative, substantial actions can we take that will address the barriers while moving us toward the Practical Vision?</i>								
Increasing collective impact through partnerships and systems change	Expanding Community Connections Hub Model to remaining counties	Developing funding strategies to support operations and services of full CHIR model	Building shared understanding of health equity needs in the region, including gathering resident voice	Exploring options for common data elements	Advocating for increased capacity and availability of broadband internet			
FOCUSED IMPLEMENTATION PLAN								May 25, 2021
<i>What will the NCCHIR Network accomplish the first year?</i>								
<ul style="list-style-type: none"> Shared Vision and Mission identified Shared outcomes framework developed Conduct collective impact survey designed for the CHIR transformative change process to serve as benchmark Prioritize components of the transformative change process identified in Survey 	<ul style="list-style-type: none"> Inventory partners engaged in SDOH screening and referrals Add members of the NCCHIR to the Community Connections Workgroup Pilot Community Connections in Osceola County 	<ul style="list-style-type: none"> Expand Steering Committee Secure Grant funding Make-up of the Steering Committee—governance documents MiThrive assessment completed 	<ul style="list-style-type: none"> Formalizing Health Equity guidelines for processes that we use in the NCCHIR to monitor health equity Determining methods for gathering resident voice 	<ul style="list-style-type: none"> Identify MDHHS plans for Community Information Exchange Conduct environmental scan on data agencies are collecting Determine the focus on data elements, collection ,and sharing 	<ul style="list-style-type: none"> Environmental scan conducted regarding broadband access issues Availability of access communicated to general population 			

**NCCHIR NETWORK
STRATEGIC DIRECTIONS—CREATED ON APRIL 13, 2021**

What actions can we take to address Barriers and move closer to our Practical Vision?

<p>Align organizational goals and priorities for greater collective impact</p> <ul style="list-style-type: none"> • Meet with other health systems to develop shared goals regarding access to healthcare • Scan of Mission statements to find alignment • Review Network member's strategic plans and goals to find alignment • Find common priorities w/competing goals • Develop toolkit assessment to identify shared goals 	<p>Expand and strengthen cross sector relationships</p> <ul style="list-style-type: none"> • Ask what needs organizations have • Attend partner’s meetings to get a better understanding of their priorities • Smaller meetings with limited agencies to build relationships • Ask what they can bring to the table and then let them be responsible for that – make them a champion • Plan to expand this network • Find mutual wins between partners • Recruit additional members to Steering committee • Engage in a virtual platform to allow for organic, unstructured networking and connection • Create opportunities for information sharing among members 	<p align="center">Increasing collective impact through partnerships and systems change</p>
<p>Build shared understanding of health equity needs in the region</p> <ul style="list-style-type: none"> • Build a shared understanding and common language around health equity • Create tailored communications around systems work importance • Training to understand / educate on health equity • Educate community agencies on population demographics 	<p>Develop plan to gather resident voice</p> <ul style="list-style-type: none"> • Research methods and develop a plan to gather resident voice 	<p align="center">Building shared understanding of health equity needs in the region, including gathering resident voice</p>

<p style="text-align: center;">Expand Community Connections to remaining counties</p> <ul style="list-style-type: none"> • Engage partners to establish community connections workgroup • Determine list of partners necessary for community connections • Conduct an assessment of agencies utilizing SDoH screening in some form • Collaboration with network providers to identify/expand service area needs 	<p>Expanding Community Connections Hub Model to remaining counties</p>
<p style="text-align: center;">Develop funding strategies to support operations and services of the CHIR</p> <ul style="list-style-type: none"> • Identify various funding opportunities • Contact other agencies to identify novel funding sources • Enlist help from librarians for grant searches • Apply for funding to cover gap in 4 counties 	<p>Developing funding strategies to support operations and services of full CHIR model</p>
<p style="text-align: center;">Explore options for common data elements</p> <ul style="list-style-type: none"> • Establish shared data elements and collection methods • Take shared data problem to IS experts • Cloud-based data system • Convert to centralized data system • Educate agencies on value of shared data system 	<p>Exploring options for common data elements</p>
<p style="text-align: center;">Advocate for increased capacity and availability of broadband internet</p> <ul style="list-style-type: none"> • Advocate to local decision makers around broadband • Review potential broadband partners for capacity • Hot Spot availability until broadband is available 	<p>Advocating for increased capacity and availability of broadband internet</p>
