

NCCHIR STEERING COMMITTEE STRATEGIC PLAN

CAPACITY BUILDING STRATEGY (HOW)

STRATEGIC GOAL (WHAT)

IMPLEMENTATION STRATEGY (HOW)

INTERMEDIATE OUTCOMES (WHY)

LONG-TERM POPULATION LEVEL OUTCOMES (WHY)

1. Developing funding strategies to support operations and services of the full CHIR model.
 2. Increasing collective impact through partnerships, systems change, and collective advocacy.

Social determinants of health addressed collaboratively

Expanding Community Connections Hub Model to the full NCCHIR Region

Universal cross-sector SDOH screening

Increased focus on preventive care models

Exploring options for common data elements

Centralized data system for coordinated referrals across sectors

Co-creating SDOH accelerator plan.

Individuals recommended preventative care to reduce chronic disease

Connections created to reduce Social Isolation

Health in all policies integrated across sectors

Growing an integrated health in all policies approach

Cross-sector health policies in place to create more equitable communities and thriving residents

Collective advocacy to maintain health promoting policy decisions.

Expanded broadband availability.

Residents and diverse community partners authentically engaged

Building a shared understanding of health equity needs including resident voice

Organizations more responsive to resident needs

Empowered Residents
