

Call for Submissions to:

THE DATA BLOB

Submit community partner data aligned with the 2024 MiThrive Community Health Assessment!

We Need You!

The local data your organization collects is vital to our 31-county region! Once publicly available on Conduit, it can be used for grant writing and reports across the region and within your own organization. **We are collecting 2 data types:**

Qualitative Data

This data type tells a story and includes information obtained from interviews, focus groups, mapping, etc. It helps provide the context for why conditions exist and how different communities experience those conditions. It brings quantitative data to life! Visit the following link to submit qualitative data or scan the QR code:

<https://survey.alchemer.com/s3/7955533/e71a77590603>

- The Qualitative Data Collection Form accepts PDF and Word Files.
- [Qualitative Data Guide](#)

Quantitative Data

This data includes surveys, observations, secondary and surveillance data. Data may cover areas such as health status, disease/injury, health behaviors, social determinants of health, and more. Visit the following link to submit quantitative data or scan the QR code:

<https://survey.alchemer.com/s3/7955533/6598a0b42763>

- The Quantitative Data Collection Form only accepts Excel Files.
- [Quantitative Data Guide](#)

Guidelines:

- Clean the data before submitting. Do not include any personal identifiable information.
- Deadline for prioritization consideration is 10/1/2024.
- Questions? Email: mithrive@northernmichiganhir.org
